

## Website—Marking Sheet

Digital Technologies AS91370 (2.43):

**Implement advanced procedures to produce a specified digital media outcome**

| Achieved   | Merit  | Excellence   |
|--|--|--|
| Implement advanced procedures to produce a specified digital media outcome | Skilfully implement advanced procedures to produce a specified digital media outcome | Efficiently implement advanced procedures to produce a specified digital media outcome |

**Student Name:**

**Assessor:** Emma Scobie-Jennings

**Grade:** N A M E

| Specification   | Comments / Evidence | A                        | M                        | E                        |
|---|---------------------|--------------------------|--------------------------|--------------------------|
| <b>Tools and techniques to create original images</b>     |                     |                          |                          |                          |
| • Original photographs taken / images created             |                     | <input type="checkbox"/> |                          |                          |
| • Images edited / resized                                 |                     | <input type="checkbox"/> |                          |                          |
| • Images saved in appropriate format                      |                     | <input type="checkbox"/> |                          |                          |
| • Images optimised for web                                |                     | <input type="checkbox"/> |                          |                          |
| <b>Tools and techniques to create webpages</b>            |                     |                          |                          |                          |
| • Website plan  |                     | <input type="checkbox"/> |                          |                          |
| • Site coded using HTML                                   |                     | <input type="checkbox"/> |                          |                          |
| • Used external style sheet                               |                     | <input type="checkbox"/> |                          |                          |
| • File / folder structure is sensible                     |                     | <input type="checkbox"/> |                          |                          |
| • Code indented for easy reading                          |                     |                          | <input type="checkbox"/> |                          |
| • Code commented  |                     |                          |                          | <input type="checkbox"/> |
| • Code is efficient (minimal mark-up / css)               |                     |                          |                          | <input type="checkbox"/> |
| <b>Testing of website</b>                                 |                     |                          |                          |                          |
| • HTML validates  |                     |                          | <input type="checkbox"/> |                          |
| • CSS validates   |                     |                          | <input type="checkbox"/> |                          |
| • Pages display well in Chrome and one other browser      |                     | <input type="checkbox"/> |                          |                          |
| • Text is readable (minor errors acceptable for achieved) |                     | <input type="checkbox"/> |                          |                          |
| • Images resized to fit space on page                     |                     |                          | <input type="checkbox"/> |                          |

|   |  |                          |                          |                          |
|---|--|--------------------------|--------------------------|--------------------------|
| <ul style="list-style-type: none"> <li>Images manipulated to enhance visual style of page</li> </ul>  |  |                          |                          | <input type="checkbox"/> |
| <ul style="list-style-type: none"> <li>All links work</li> </ul>                                      |  |                          | <input type="checkbox"/> |                          |
| <ul style="list-style-type: none"> <li>All images display correctly</li> </ul>                        |  |                          | <input type="checkbox"/> |                          |
| <ul style="list-style-type: none"> <li>Pages in site are consistent</li> </ul>                        |  |                          | <input type="checkbox"/> |                          |
| <b>Followed legal, ethical and moral responsibilities:</b>  |  |                          |                          |                          |
| <ul style="list-style-type: none"> <li>Text sourced from the Internet correctly referenced</li> </ul> |  | <input type="checkbox"/> |                          |                          |
